### **Reasons for Allowance**

1. The following is an examiner's statement of reasons for allowance:
2. The examiner has noted Fukudome (US 6,682,821), which is considered relevant art. Fukudome, not previously cited, teaches a silicon-based substrate, with a disilicate intermediate layer and a yttrium stabilized zirconium oxide layer over top (see claims and figures). However, it does not teach the other elements (layers) of applicant's claimed invention. It would not of been obvious to one of ordinary skill in the art at the time of the invention to add an additional tantalum oxide layer or a diffusion barrier coating as claimed by applicant. There is no motivation to combine these features with the invention of Fukudome.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Daniel Miller whose telephone number is (571)272-1534. The examiner can normally be reached on M-F.
